## A Next Generation Cryptocurrency Index Fund with a Venture Capital Feeder Fund

by Kenneth Omoya – on behalf of Tripterium Capital LLP – May 18, 2018

### WHAT IS THE PORTFOLIO'S OBJECTIVE?

Tripterium T50 is a tokenized, closed-end index fund (CEF), which passively tracks the top fifty cryptocurrency assets by market capitalisation, in order to deliver healthy returns. The fund has a Venture Capital Feeder Fund, which will invest in expertly-vetted early stage blockchain technology companies that are seeking to undertake an Initial Coin Offering (ICO), therefore benefitting from the ICO returns.

Profits from the Tripterium Venture Capital Feeder Fund will provide a constant stream of new money coming into the Tripterium T50 index fund, increasing the Net Asset Value (NAV) of the portfolio to the benefit of the T50 token holders. No further tokens will be minted post-ICO. The T50 tokens will be tradable on exchanges post-ICO.

### WHY DOES THE INDEX FUND INCLUDE A VENTURE CAPITAL FEEDER FUND?

Tripterium T50 has been structured to take advantage of the efficient-market hypothesis (EMH) theory. The T50 index fund will harness the power of the market to deliver healthy returns, while the Venture Capital Feeder Fund will invest in riskier ventures in order to gain from the higher returns associated with them. This allows for Tripterium T50 to consistently outperform the market and benefit from the fastest growing next generation market in the world.

### WHY PARTICIPATE?

Cryptocurrencies offer very attractive returns but have traditionally had an unacceptable risk profile and are exceedingly difficult to engage with as they are obscured by technical complexity. There are hundreds of cryptocurrencies for investors to choose from. Choice paralyzes: choice adds cost, complexity and the need for advice.

Tripterium T50 aims to change this with a portfolio that regularly rebalances in order to mitigate risk, has broad market exposure and allows for diversification into the top fifty cryptocurrency assets by holding a single token.

### WHO SHOULD CONSIDER PARTICIPATING IN TRIPTERIUM T50?

Investors who are building wealth, and who are:

- ✓ Interested in benefiting from the fastest growing next generation market in the world
- ✓ Comfortable with full exposure to cryptocurrencies
- ✓ Looking for broad exposure to the cryptocurrency index and know that risk is correlated with return
- ✓ Want to take advantage of the efficient-market hypothesis (EMH) theory
- ✓ Aware that cryptocurrencies are volatile and there may be short-term losses

### WHAT COSTS CAN I EXPECT TO PAY?

A management flat annual fee of 1%. The management fee is calculated as a percentage of the net asset value of the portfolio per annum. The fee is used to pay for the infrastructure and labour needed to administer the portfolio.

There are no exit fees, no brokerage fees, and no advice fees.
